

Integrated Science

Objectives:

1. To provide students with some knowledge of the empirical world around them.
2. To provide students with an introduction to the vocabulary and grammar of science and improve students' communication skills.
3. To develop students' ability to observe critically.
4. To develop students' ability to solve problems and think scientifically.
5. To provide students with an understanding of the relevance of science to the world beyond school and to the needs of a changing society.
6. To provide a safe and suitable environment for activities in laboratory.
7. To provide students with a platform for further study in science subjects.

Members:

Mr. MN Lo (Panel Head)
