New Measures (HKU)

HKU's new admissions system will give bonus points on top of the present scores attached to each Level as follows:

HKDSE Level obtained in Category A - Senior Secondary Subjects	1	2	3	4	5	5*	5**
Level conversion to scores under the existing system	1	2	3	4	5	6	7
Level conversion to scores under the **New Bonus Points system**	1	2	3	4	5.5	7	8.5

New Measures (CUHK): Admission of STEM Talents

- The Faculty of Engineering and the Faculty of Science have jointly launched a STEM Talent Scheme for selection and admission of applicants with breadth and in-depth exposure and achievement in STEM.

- For applicants taking the local HKDSE exam, STEM talents are defined as those who have achieved in HKDSE at least "3 Stars" (e.g. Level 5*5*5* or 5**5*3) in 3 STEM elective subjects.

- The STEM elective subjects include Biology, Chemistry, Physics, Mathematics Extended Module I or II (M1 or M2), Combined Science, Integrated Science, Information and Communication Technology, and Design and Applied Technology.

- The two faculties will grant flexibility in admission to STEM talents as defined above if they place the programme as their priority (e.g. as one of their top JUPAS programme choices).

- Such special consideration is also extended to JUPAS applicants who fail to fulfil the University minimum entrance requirements of Level 3322 in the 4 core subjects. Selection interview and offer of admission may be granted.

New Measures (CUHK): Preferential HKDSE Score Conversion

The University will introduce a preferential HKDSE score conversion scale applicable to admission score calculation of all undergraduate programmes (except Medicine, and Medicine – Global Physician Stream).
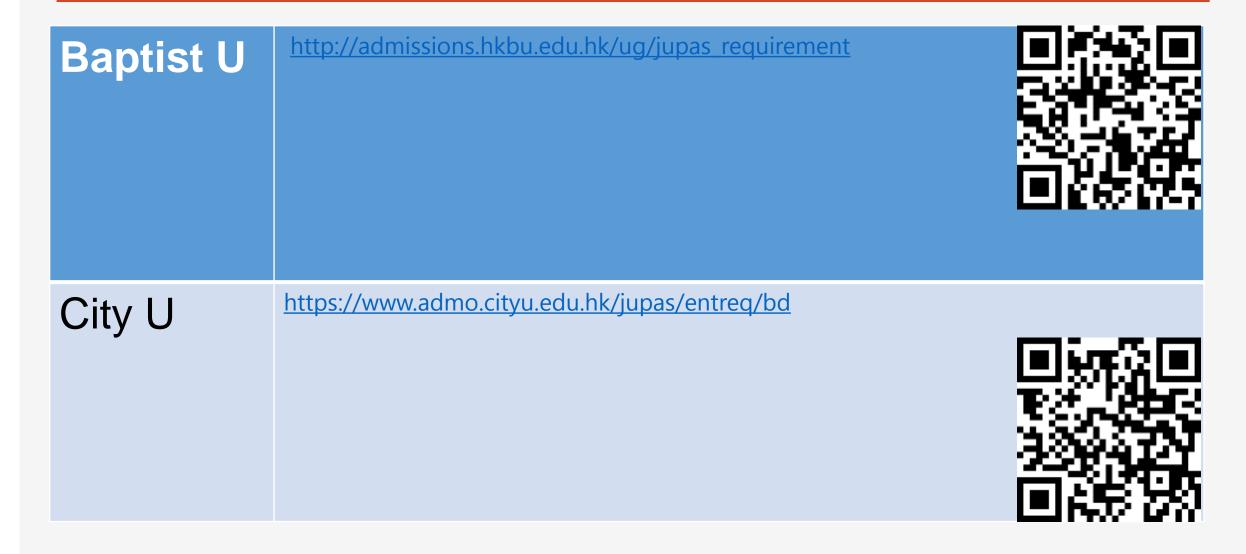

The conversion applies to Level 5 or above. The augmented HKDSE score conversion for 2019 entry is as follows:

Category A - Core and Elective Subjects (including M1 and M2)

Level	5**	5*	5	4	3	2	1
Score	8.5	7	5.5	4	3	2	1

(Augmented score conversion is highlighted in red colour in the table above.)
